

благодарственное ПИСЬМО

Hereby we would like to express our deep gratitude for the endowment of Elcon company to KBC development and progress, which can hardly be overestimated.

Elcon is known as a reliable partner offering a full range of engineering services contributing to high performance of Kaluga Brewing Company.

"Quality without compromise" has been the main slogan of Elcon while dealing with our company.

Further close cooperation with Elcon would be a great privilege.

As a proof of our respect and friendship we are pleased to provide Elcon team with our high-quality beer for the next Christmas party to be held in Kaluga in December 2001.
