Granatny pereulok, 22

Kaluga

March 13, 2001

Dear Mr. Deiters,

"ELCON" has been engaged on Kaluga Brewery Projects since 1997 and there have been a lot of inputs from your company regarding planning and execution of electrical work.

I have particularly enjoyed working with qualified and experienced multilingual experts who have sound knowledge of German Rules DIN/VDE and international standards IEC as well as Russian standards SNIP and GOST.

Therefore, I would like to offer my personal thanks for your contributions and I'm looking forward to future co-operation.

Arnulf Weiler
Brewing Manager
of the "Kaluga Brewing Company"
